

COURSE ON Optimising Treatment for Major CARDIAC SYNDROMES

24th - 25th November 2017
Raffles Dubai | United Arab Emirates

COURSE OVERVIEW

The course aims to update and standardise the optimal treatment in the different cardiac conditions both chronic and acute. The course will summarise the key pathophysiological components to promote a better understanding of the pharmacological targets. The clinical presentation features of the different cardiac syndromes will be illustrated to help in assessing the key warning characteristics that mandate treatment initiation, change or withdrawal.

Treatment strategies will be principally focused on medical treatment whilst indicators for specialty and super-specialty strategies (including infusional continuous drugs, interventional procedures, mechanical support to circulation and organ perfusion, and cardiac surgery) will be illustrated. These indicators will help attending physicians in the decision to refer patient to a hospital setting or to a specialty tertiary level institution in a prompt and appropriate way. This approach will support the best care of patients and will increase the confidence and reliability of physicians to address the issues of critical patients in the most appropriate way.

Emphasis will also be put into optimising the “standard” treatment to each individual needs and clinical conditions in order to provide to the patients the most benefits in terms of care, symptom relief, quality of life and prognosis.

Treatment strategies and flow charts will be illustrated starting from international guidelines and results of most recent

Some case studies will be presented to promote discussion and application of the knowledge there acquired.

Throughout the course open questions and academic discussion is strongly encouraged.

MAIN TOPICS

- Acute coronary syndromes
- Chronic myocardial ischemia/chronic stable angina
- Heart failure chronic and acute
- Hypertension
- Atrial Fibrillation and major arrhythmias

WHO SHOULD ATTEND

- General practitioners
- Internal medicine
- Cardiologists

Training organized by:

GRUPPO SAN DONATO
HEALTHCARE

This course is certified by:

COURSE TRAINER

Domenico Cianflone MD FESC MIHHS

Director Cardiovascular Prevention & Rehabilitation -
San Raffaele Hospital

Associate Professor in Cardiovascular Medicine -
Università Vita Salute San Raffaele

He is the Director of the Cardiovascular Rehabilitation and Prevention at San Raffaele Hospital - Milano. He is also Associate Professor in Cardiology at San Raffaele University - Milano. He was previously the Director of the Coronary Care Unit - San Raffaele Hospital - Milano

Dr. Domenico Cianflone, was a lecturer in Cardiology at University “Vita – San Raffaele University - Milano. Before that he was a lecturer in Cardiology at University Cattolica Roma.

He was Deputy Director Coronary Subintensive Unit – Policlinico “A.Gemelli” - Catholic University Roma and the Director of Clinical Informatics and Telematics - Coronary Research Center - Catholic University Roma. He is also the Deputy Editor - Int. Journal of Cardiology – Elsevier (2016-), Editorial Board Italian Heart Journal (1998-2000), Editor-in-Chief Medscape Italia Cardiologia (1999-2001), Chief Curator: ACCSAP 6 – American College of Cardiology Self- Assessment Program – Italian edition 2005-2006
