COURSE ON GYNO COSMETIC TREATMENT AND UROGYNECOLOGY

22nd - 23rd February 2019 | Dubai, United Arab Emirates

COURSE OVERVIEW

The course aims to discuss clinical and management aspects of gyno cosmetic treatments and pelvic floor dysfunctions. Reconstructive gynecological procedures may seem 'optional' however, on the other hand, female pelvic floor dysfunction encompasses a number of prevalent clinical conditions including urinary and fecal incontinence, obstructed defecation, sexual dysfunction and female pelvic organ prolapse. On the contrary, for some women, the correction of certain conditions can be life changing in their positive effect. The course is divided into two sessions. In the first session, the focus will be on Aesthetic gynecology and the second part will comprise of female urinary incontinence, female genital prolapse from surgical viewpoints and surgical videos will be discussed.
